

Nango's song for Akka

To the tune of Where Have All the Flowers Gone

akkalove where have you gone, my sister forever

akkadear

where have you gone, I love you so

akkalove where have you gone, back to nature you have gone

oh how I miss you so

oh how I love you so

akkadear where have you gone, we love you forever

akkadear

where have you gone, we love you so

akkalove where have you gone, back to nature you have gone

oh how we miss you so

oh how we love you so
